Experience

Frontend Developer Internship | Frontend Simplified (Online)

Nov 2023 - Current

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilised Git version control and the GitHub interface to work and thrive in a virtual collaborative team environment
- Improved website performance by compressing, caching and lazy loading images and components
- Included responsive, multi-platform and hosting support, enabling websites to be used by any browser or device
